4 14点	(解答例1) I will give students several opportunities to share their opinions and ideas about the topic they will write about that day. Through these opportunities, students will be able to think about what they should write and how they should write. For students who have difficulty with English, I will also teach them to quote the English sentences from the textbook. Then, I will encourage them to add at least one more sentence of their feelings after that quote. (78 words)
	(解答例2) I will give students multiple chances to share their thoughts and ideas about the topic they will write about that day. This is because these opportunities encourage students to think about how they can express what they really want to say to other students in English. I will also encourage students to reflect on the good expressions of other students and to try to use them in their writing. (69 words)
